Job Experience

Todvob LTD.   Mar 2024 - Present
Software Engineer

- ➔ Designed **AI-driven RAG conversational apps** using **OpenAI API**, **LangChain**, and **Supabase Vector Store**, powering subscription-based platforms with **Bkash** payments and real-time features via **Pusher**.
- ➔ Built and deployed scalable **Next.js**/**React.js** front ends with **Shadow DOM** and **Zustand**, backed by **Node.js**/**TypeScript** and hosted on **Azure AI**, **Static Websites**, and **Blob Storage**.

Abroad Inquiry   Sep 2023 - Mar 2024
Junior Software Developer

- ➔ **Frontend & State**: Designed stunning interfaces with ReactJS and MUI, and managed state seamlessly using Redux and Redux Toolkit.
- ➔ **Backend & Real-Time**: Developed secure servers with Node, Express, and CORS, and enabled real-time messaging with Socket.IO, integrating MySQL via Sequelize.

BLENDIN   Feb 2023 - Aug 2023
Web Developer

- ➔ **Full-Stack Development**: Delivered SEO-optimized frontends with React, Redux, and Next.js, and built secure, efficient backends using Node.js, Express, and TypeScript.
- ➔ **CMS & SEO Mastery**: Designed and optimized WordPress sites for seamless integration, enhanced visibility, and superior performance.

QuadricBit   Sep 2022 - Nov 2022
Web Developer

- ➔ Master the MERN stack to deliver exceptional user experiences with expertly crafted websites, leveraging MongoDB, Express.js, React, and Node.js for seamless data management and flawless web application performance.
